THE COLLECTION

BECUSA, S.A. inicia su andadura en el año 1970 con un pequeño taller dedicado a la estampación de piezas metálicas, y poco a poco comienza a fabricar bisagras de cazoleta para la industria del mueble. Siempre con afán de superación, amplía la gama de producción a todo tipo de bisagras para el mercado ferretero e industrial.

En los últimos 15 años, **BECUSA, S.A.** se ha destacado por su política de CALIDAD y esfuerzo en el ámbito de I+D, logrando consigo, ampliar su gama de productos a mercados cada vez más exigentes y competitivos con el fin de satisfacer mejor las necesidades de los clientes más exigentes.

Actualmente, **BECUSA, S.A.** está presente en más de 35 países en 4 continentes, con su amplia gama de bisagras de cazoleta, guías o correderas, bisagras de diferentes acabados en acero, latón y acero inoxidable, herrajes para muebles (soportes, pasadores, cerraduras), herrajes para puertas (bisagras de seguridad, manillas, picaportes, etc) y una línea amplia de artículos de acero inoxidable (bisagras, manillas, manillones, tiradores, pasadores, etc).

BECUSA, S.A. dispone de unas instalaciones de más de 6000 m^2 que le garantiza contar con un amplio almacén de productos de diferentes gamas para cubrir las necesidades puntuales de nuestros clientes en el mínimo plazo posible.

BECUSA, S.A. *established in 1970, started to work with hardware fitting, afterwards worked with concealed hinge for the furniture. For doors from 15 to 22mm thick

Herraje para bancos rinconeros y asientos de madera con muelle
Fitting for corner benches and wooden seats with spring

Ref. B30/M

Características
El tope de apertura de la articulación de la bisagra evita que el tablero del asiento choque contra el herraje
Para peso del frente hasta 12 kg.
El gran recorrido giratorio hacia delante (110 mm) permite elevar las tapas de asiento incluso con tapicerías pesadas
Los muelles para peso de tapas de 12 kg constituyen un contrapeso óptimo y permiten una apertura ligera
No se requiere una conexión de bisagra por separado
Construcción de articulación en acero, segura para mantener el asiento en posición vertical
Ángulo de apertura de 95 °

Characteristics
The hinge joint opening stop prevents the seat board from colliding with the hardware
For front weight up to 12 kg.
The large forward swivel travel (110 mm) allows the seat covers to be raised even with heavy upholstery
Springs for 12 kg lid weight provide optimal counterweight and allow light opening
No separate hinge connection required
Steel hinge construction, secure to keep the seat upright
95 ° opening angle

Disponible sin muelle ref. B30
Available without spring ref. B30
